

# AQUILAMUS

## **Python Developer (m/f), flexible working hours**

Aquilamus is an internet company builder, based in Berlin. For its portfolio company Gymondo.de we are currently strengthening our team in Berlin and looking for frontend developers. Gymondo is an online fitness studio where users can stream fitness videos. With heavy TV advertisement and backed by leading media houses, gymondo.de is a dominant company in the fitness area. Our team consists of fitness lovers and internet experts with several years of experience.

### **Your tasks:**

- Further development of the gymondo website
- Integration of backend data into the frontend
- Reporting directly to CTO
- Presence in our Berlin office (Mitte) required, flexible working hours

### **Your profile:**

- Excellent knowledge with the one of the following web technologies:
  - *A must: Python*
  - *As a plus: JavaScript, jQuery, MS SQL,, C#, Ruby on Rails*
- Already experienced in other projects
- Creative, fresh and solution oriented thinking
- English written and spoken

### **What we offer:**

- Competitive salary
- Extremely well developed application with an excellent team of developers
- We know what we do. We never expect the impossible.
- An attractive location in the heart of Berlin-Mitte with very good transport connection

**Please send your application (only CV) directly to [alexander@aquilamus.com](mailto:alexander@aquilamus.com)**
