SAP Coding Masters 2013
A Tough Nut To Crack

Participate in SAP Coding Masters 2013, August 22-24, in Berlin and win a chance to fly to California.

The SAP Coding Masters are back! After a successful kick-off last year, we are very happy to invite you to join us for a second round this summer.

The three-day event from August 22-24 2013, will give you the opportunity to show off your coding skills and work in a team on a demanding, big data programming challenge. SAP developers will be onsite to support and coach you and your team.

Get to know and work with the latest cutting-edge technologies, including our new in-memory database, SAP HANA. Learn more from the pros about applied agile software development (such as extreme programming and rapid prototyping) and advanced data processing techniques (such as data mining and the latest SQL standards) in onsite tutorials and breakout sessions. Check out our web page for more information.

Who can apply?
If you are a high school graduate or student who has a background in computer science or a related subject, and a strong interest in applying and improving your programming skills (including SQL), we want you to apply!

And what's in it for you?
- Win a 3-6 month internship at the SAP Innovation Center and work on innovative projects with us in Potsdam/Germany and Palo Alto/California.
- Spend three fun days with like-minded people and a full fridge in the middle of Berlin – and all of this for free!
- Meet SAP experts and learn more about advanced software development techniques and the newest cutting-edge technologies.
- Get your SAP Coding Masters 2013 T-shirt and other giveaways
