

## Job Offer

### Your Job

Be part of an aspiring Berlin start-up and get to work on an innovation in web development and in a small and young team.

We are developing an app for Android and iOS and we need help in evaluating HTML websites. Main focus lies on HTML PARSING using XPATH, CSS and REGULAR EXPRESSIONS. You don't have to have extensive programming skills for this job.

If you are a student and want to gain valuable insights into developing for the web and make some money, Timeslot is the right place for you.

### About Timeslot

We offer an attractive and ambitious challenge to simplify personal time-management in order to increase the quality of life for everyone. We want to inspire people to give a new meaning to their limited time, to spend more time together and on things they like.

### Job description:

You will be responsible for HTML parsing using XPATH, CSS and REGULAR EXPRESSIONS.

No extensive programming skills needed.
